### Course Description:

#### **BASIC LITERACY TUTOR TRAINING:**

The written word bombards us daily. We're expected to read information constantly. For about 25% of our population, reading proficiently is difficult and sometimes impossible. Teaching an adult to read does not require an education degree. It does require patience and desire to transform an adult's life through literacy. To become a Literacy Volunteers of Bangor tutor, we offer this 15-hour training course, which provides teaching strategies, adult learning models, information on learning disabilities and lesson planning. Taking the 1-hour **Intro to Literacy** course is advised. For more information or to register, contact 947-8451.
